

**How to 3X your
finance team's
productivity in T&E
Management: Learn
from **Ashirvaad Pipes****

The Problem

I can't fill excel sheets. It's too tedious

Wish we had an alternative

An excel template was shared with our employees where they had to fill in all the details, then take a printout, attach all documents, and send it to their managers.

The Issues

An excel
template was
shared

Printouts were taken,
documents attached

Late reimbursements,
unhappy employees

They faced challenges such as policy violations, lost receipts, inefficient expense tracking, etc., which led to cementing the need for a T&E solution.

The Solution

We have found a solution

I believe it will solve a lot of problems

After implementing Happay, the accounting team achieved 3x productivity and efficiency. Happay helped Ashirvad automate all the processes end-to-end.

The Change

**Deviation
workflow**

**100%
paperless**

**Happy
employees**

Indirect savings include the digitalization of data, preventing policy violations easily, time saved for the employees, etc. which results in **savings of 20 to 30 lakhs annually.**

The Big 3 Effect

02

01

Automated compliance with 200+ policies

Real-time visibility on expense approvals

Auto-creation of expense claims

Happay has helped in streamlining our expense management process by providing us with a user-friendly tool. With its seamless integration, automated workflows, and real-time tracking, our finance team can now efficiently manage employee travel related expenses.
