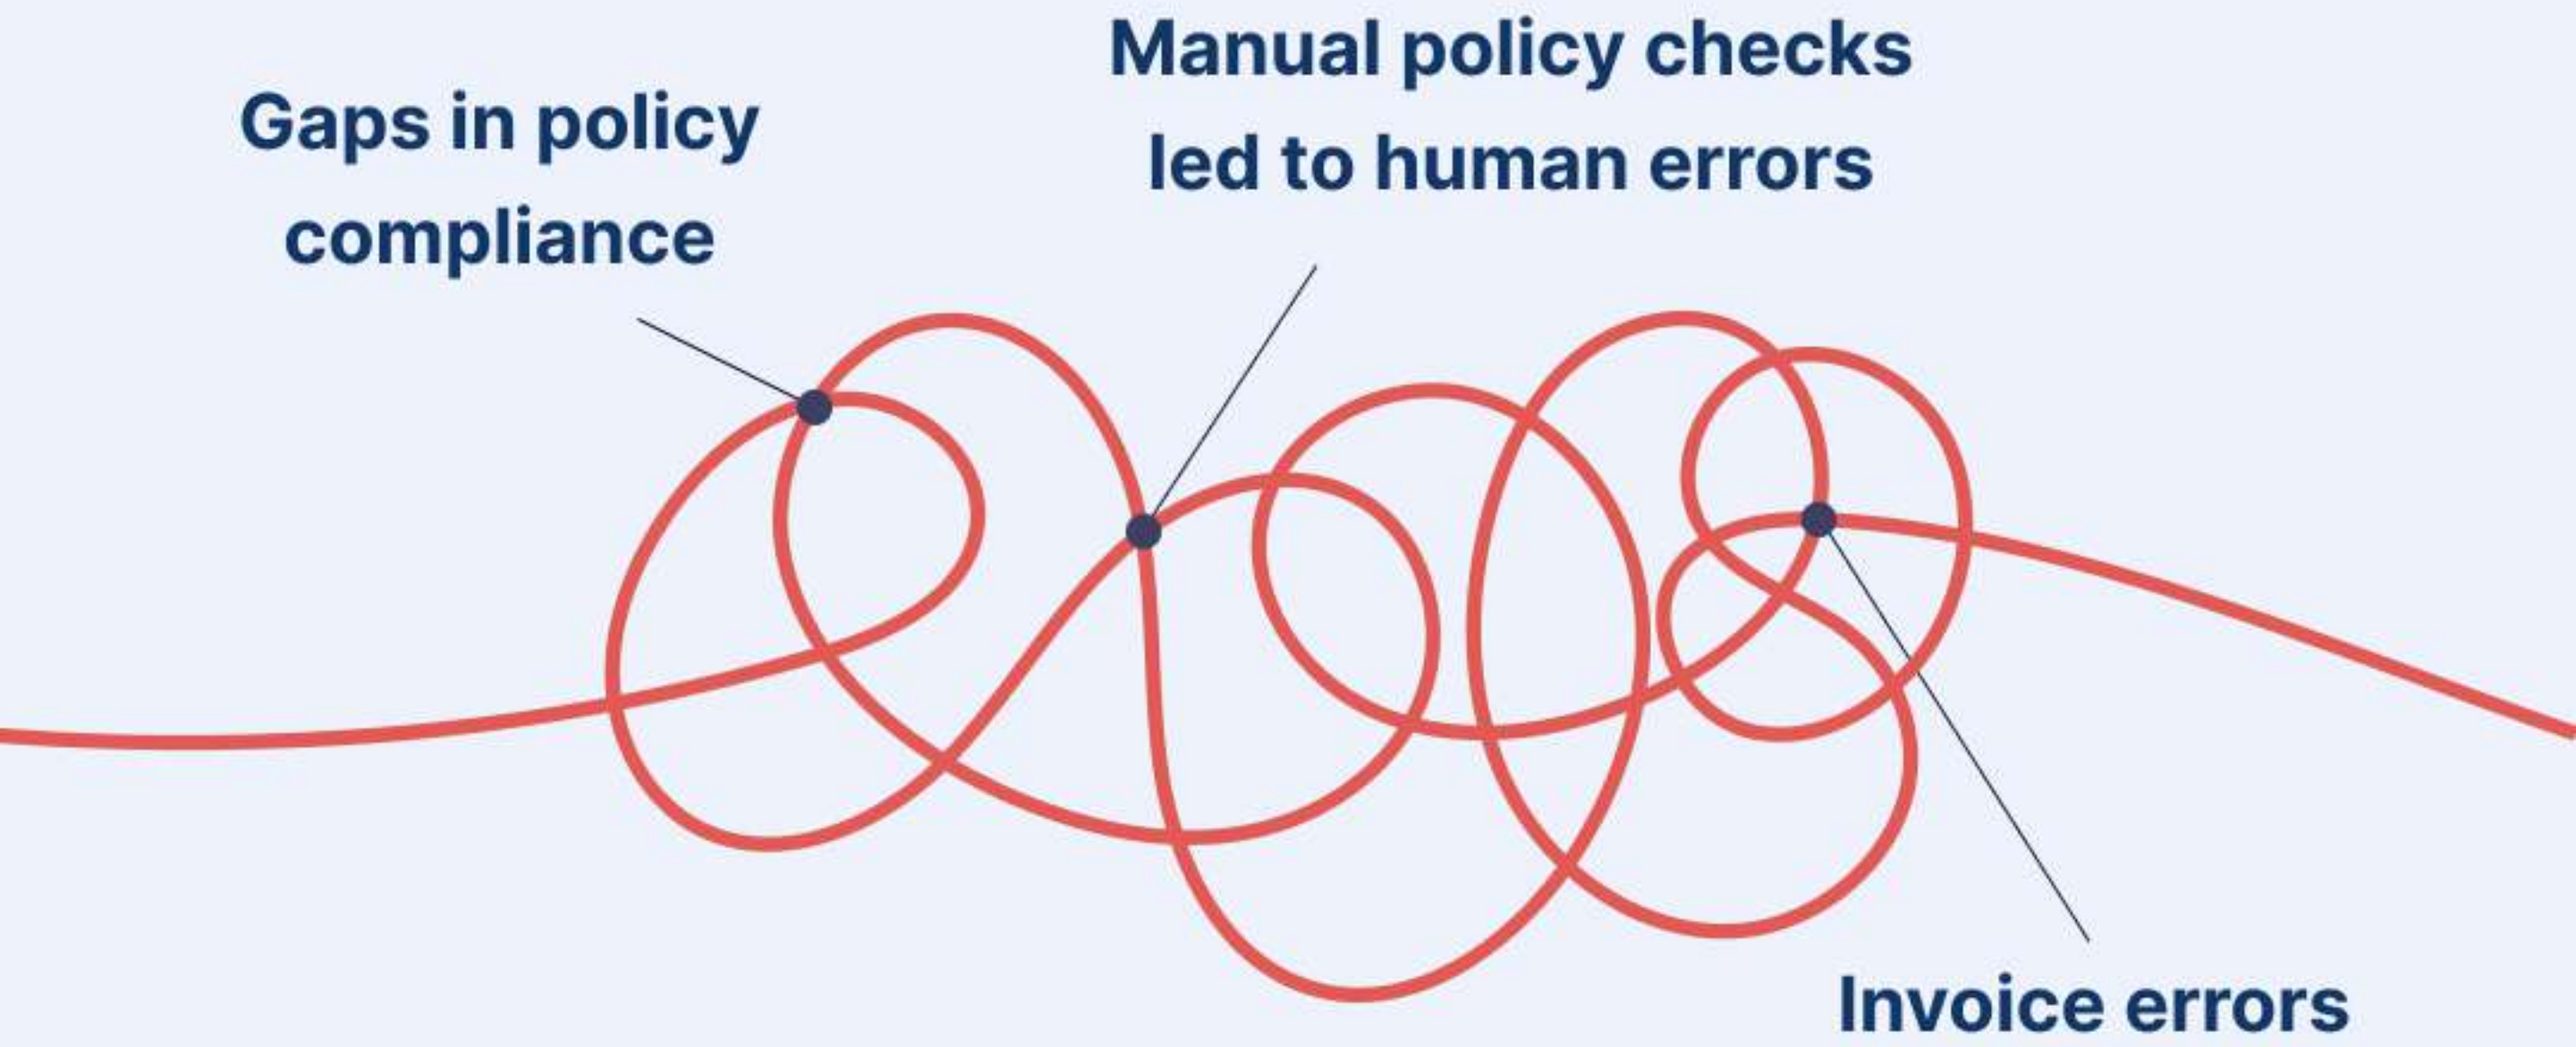
Read how H1 created a 100% mobile T&E Experience for their employees from Day 1

The Problem

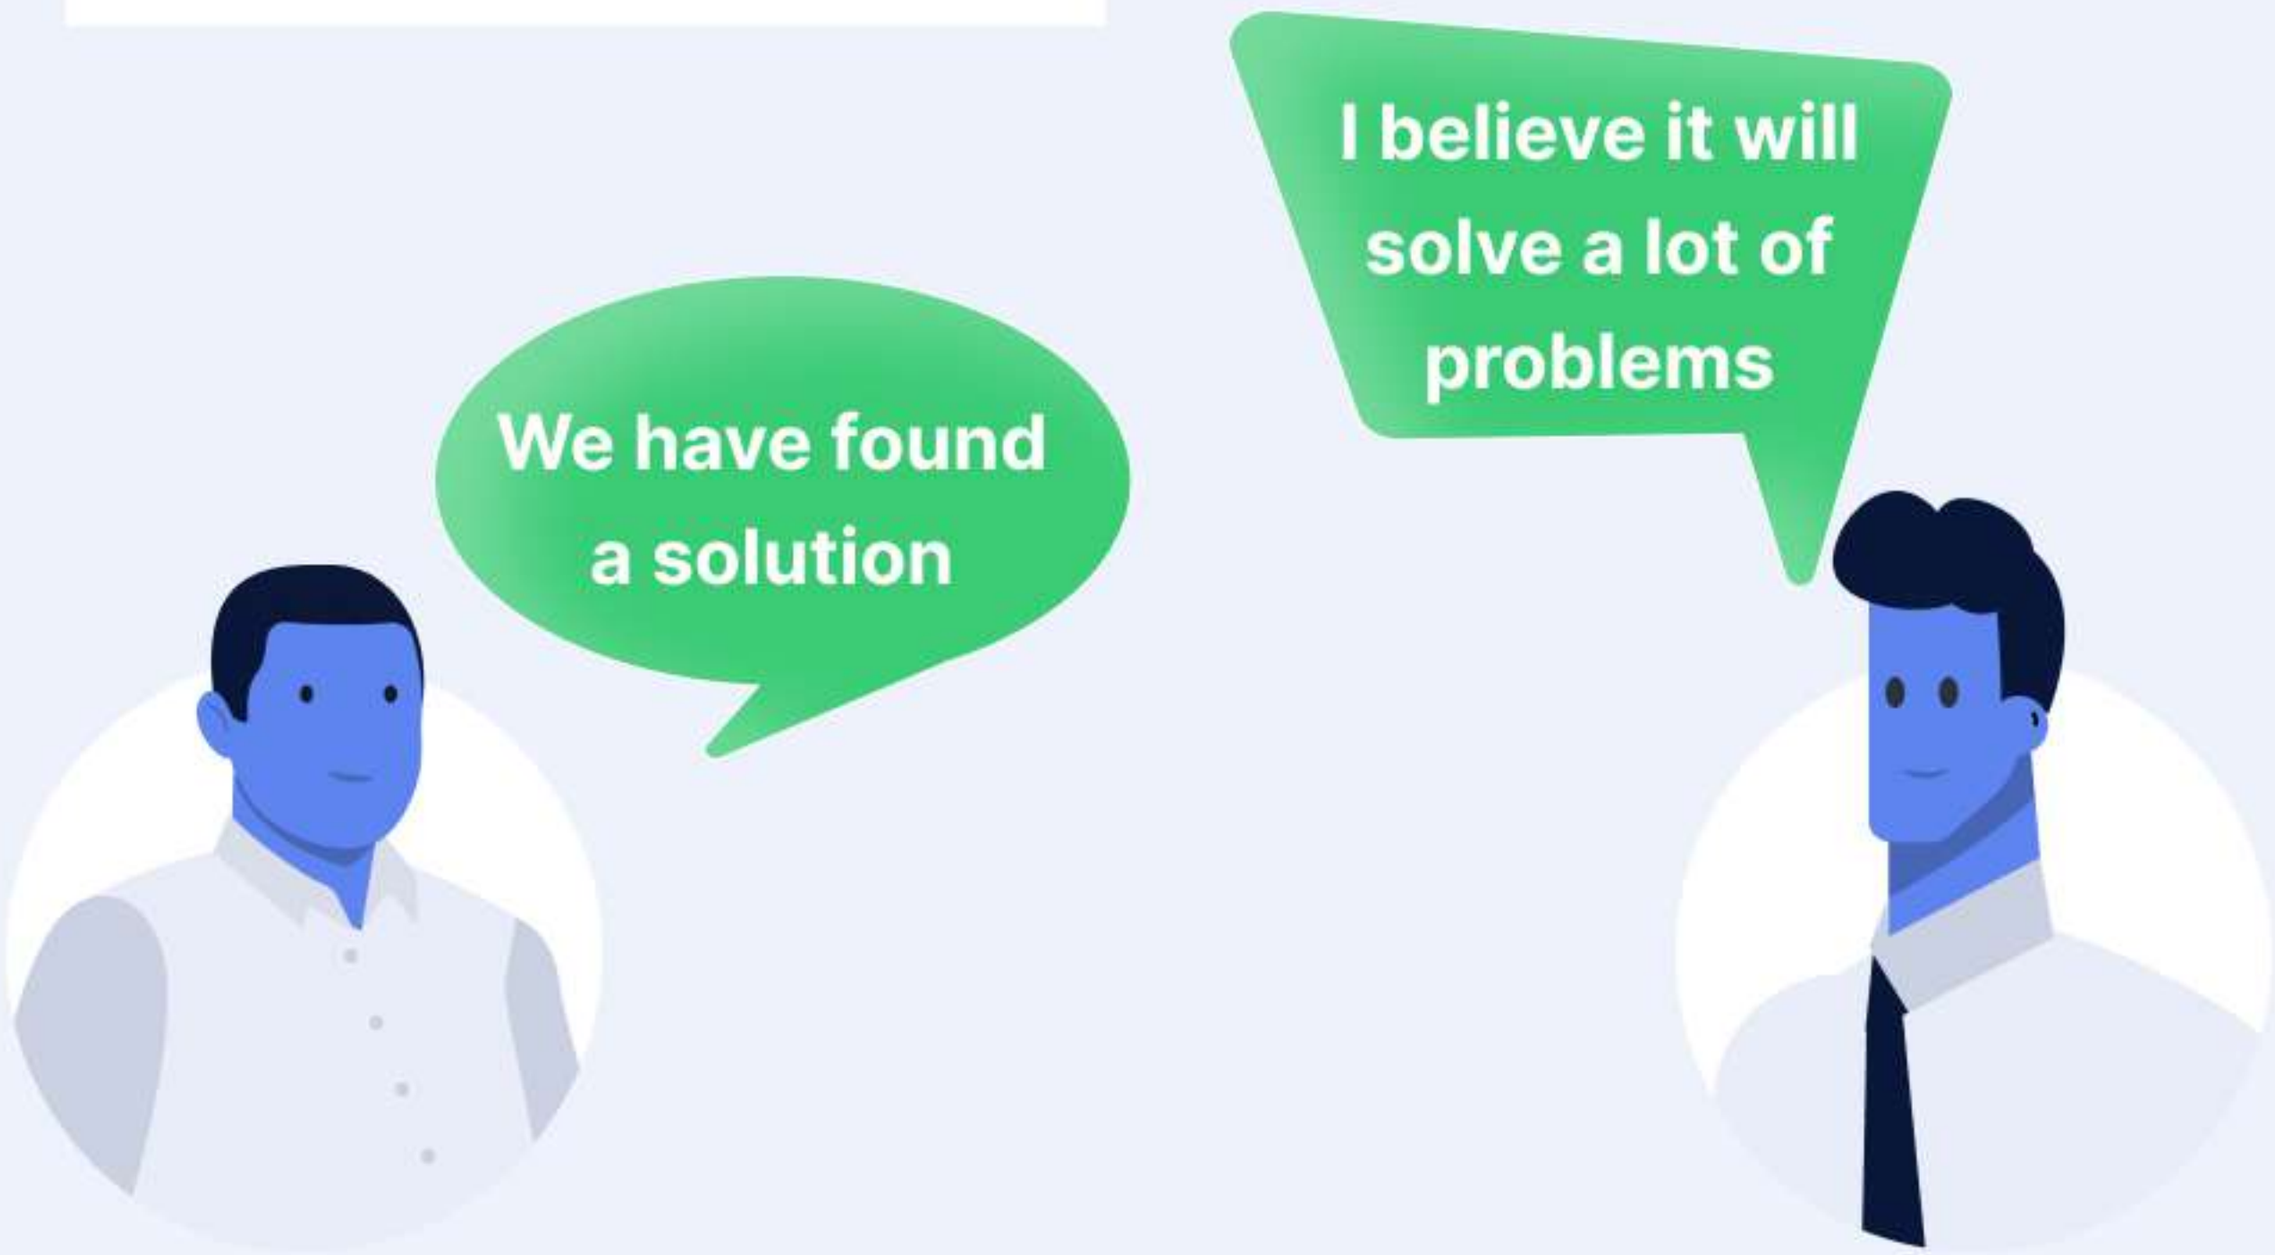
H1 works as the trusted source for healthcare professional information for life sciences. They have a work-from-anywhere model that demands a smart expense management tool.

The Issues



H1 knew an end-to-end automated expense management software will solve expense filing problems and make their employees' lives easier.

The Solution



H1 adopted Happay early on and used its unique features to build a robust, completely mobile expense management infrastructure.

The Change

Deviation workflow

100% paperless

Happy employees

H1 adopted Happay's end-to-end expense management software, a solution that allowed them to set up complex deviation workflows, auto-created expenses and more. This allowed the employees to travel and spend worry-free.

The Big 3 Effect

Automated compliance with 200+ policies

Real-time visibility on expense approvals

Auto-creation of expense claims

"Using Happay aligns with our work-from-anywhere model. The whole expense management process, including expense filing, submission and approvals, is completely digital. The user-friendly and intuitive interface is also a hit with our employees."

-Gaurav Kamra, Director- People, H1
