

**The choice that
transformed**

Parijat Industries'

**expense filing
experience**

The Problem

I paid ₹1000
for petrol

How can I
be sure?

Our fleet on the street - our salespersons as they spent their own money. The finance team and sales team were always **untrusting** of each other, which led to prolonged reimbursement cycles, and loss of productivity.

The Process

**Complicated
process**

**Confused
employees**

**Delayed
approvals**

Rural fleet members found their ERP complicated which lead to delays in expense filing and delays in approvals.

The Solution

I paid ₹1000
for petrol

Yes, I already
know

FleetXpress Cards & Xpendite enabled salespeople to use smart company cards loaded with company funds. These cards recorded and communicated all expenses in real-time to the finance team.

The Change

Automated
process

Quick
approvals

Happy
employees

Parijat's management automated approvals using **predefined rules**, such as automatic approval for expenses below ₹50. This resulted in **faster approvals**, reduced frustration, and improved employee morale.

The Big 3 Effect

03

02

01

Automatic fraud detection

Guaranteed and quick policy compliant approvals

Automated report validation and expense reconciliation

"Before Happay, we believed that expense management is torture for everyone. Not only did Happay change this for us by speeding up our reimbursement cycles, reducing approval delays, and improving our finance team's productivity, but it also did all this while being the simplest software to use."

-Uday Anand, Director, IT, HR & Admin
